Introduction

Thank you for choosing the PulseTrack Elite X2 by FitTech. This advanced smartwatch is designed to be your ultimate fitness companion, providing comprehensive health monitoring and smart features in a sleek, durable design. This user manual will guide you through the setup, operation, and maintenance of your new device to ensure you get the most out of your health and fitness journey.

Getting Started

Package Contents

- PulseTrack Elite X2 smartwatch
- Magnetic charging cable
- Additional silicone strap (small/large)
- Quick start guide
- This user manual

Before First Use

1. Remove the protective film from the watch face
2. Charge the device fully before initial setup (approximately 2 hours)
3. Download the FitTech Connect app from the App Store or Google Play Store
4. Create or log in to your FitTech account

Product Overview

PulseTrack Elite X2 Components

1. 1.4-inch AMOLED touchscreen display
2. Multi-function button
3. Optical sensors (heart rate, SpO2)
4. ECG electrodes
5. Charging contacts
6. Interchangeable strap attachment points
7. Speaker
8. Microphone

Technical Specifications

Feature	Specification
Display	1.4-inch AMOLED (454 x 454 pixels), Always-on capability
Sensors	Optical heart rate, ECG, SpO2, accelerometer, gyroscope, altimeter, temperature
Connectivity	Bluetooth 5.2, Wi-Fi, NFC

Battery	420mAh lithium-ion, up to 14 days (standard mode), 36 hours (GPS mode)
Water Resistance	5 ATM (50 meters)
Materials	Aerospace-grade aluminum case, silicone strap (interchangeable)
Dimensions	45mm x 45mm x 12mm
Weight	48g (without strap)
Compatibility	iOS 12.0+, Android 8.0+

Setup and Pairing

Initial Setup

1. Charge your PulseTrack Elite X2 using the included magnetic charging cable
2. Press and hold the multi-function button for 3 seconds to power on
3. Follow the on-screen instructions to select your language and accept the terms of service
4. Download the FitTech Connect app on your smartphone if you haven't already

Pairing with Your Smartphone

1. Open the FitTech Connect app on your smartphone
2. Create a new account or log in to your existing account
3. Tap "Add Device" in the app
4. Select "PulseTrack Elite X2" from the list of available devices
5. Follow the on-screen instructions to complete the pairing process
6. Allow all requested permissions for full functionality

Wi-Fi Connection

1. In the FitTech Connect app, go to "Device Settings" > "Wi-Fi"
2. Select your Wi-Fi network from the list
3. Enter your network password
4. Tap "Connect"

Basic Operation

Touchscreen Navigation

- **Swipe down**: Access quick settings (Do Not Disturb, Brightness, etc.)
- **Swipe up**: View notifications
- **Swipe left/right**: Cycle through widgets (Heart Rate, Weather, Activity, etc.)
- **Tap**: Select an item or open an app
- **Press and hold**: Change watch face or access additional options
- **Double-tap**: Return to the home screen from any app

Button Functions

- **Single press**: Wake screen / Return to watch face
- **Double press**: Open favorite app (customizable)
- **Press and hold**: Power on/off or access voice assistant
- **Press and hold for 10 seconds**: Force restart (if device becomes unresponsive)

Changing Watch Faces

1. Press and hold on the current watch face
2. Swipe left or right to browse available watch faces
3. Tap on a watch face to select it
4. Additional watch faces can be downloaded from the FitTech Connect app

 Watch Face Gallery

Health Monitoring Features

The PulseTrack Elite X2 offers comprehensive health monitoring with clinical-grade accuracy.

Heart Rate Monitoring

- **Continuous monitoring**: Tracks your heart rate 24/7
- **Heart rate zones**: Shows your current zone during workouts
- **Resting heart rate**: Measured during sleep and periods of inactivity
- **Heart rate alerts**: Notifies you of unusually high or low heart rates

To view your heart rate:

1. Swipe to the Heart Rate widget on your watch
2. Tap to open the Heart Rate app for more detailed information
3. In the FitTech Connect app, go to "Health Data" > "Heart Rate" for historical data and trends

ECG (Electrocardiogram)

- Captures electrical signals from your heart to detect irregular rhythms
- Not intended for medical diagnosis

To take an ECG reading:

1. Open the ECG app on your watch
2. Rest your arm on a flat surface
3. Place your finger on the multi-function button (which serves as the second electrode)
4. Remain still for 30 seconds while the reading is taken
5. View results on your watch and in the FitTech Connect app

Blood Oxygen (SpO2) Monitoring

- Measures the oxygen saturation level in your blood
- Automatic measurements during sleep
- On-demand measurements any time

To take a blood oxygen reading:

1. Open the SpO2 app on your watch
2. Keep your wrist flat and still
3. Wait 15-20 seconds for the measurement to complete
4. View your results and historical data

Sleep Tracking

- Automatically tracks your sleep duration and quality
- Identifies sleep stages (light, deep, REM)
- Provides a sleep score and recommendations

To view sleep data:

1. Open the Sleep app on your watch for last night's summary
2. For detailed analysis, check the FitTech Connect app under "Health Data" > "Sleep"

Stress Monitoring

- Measures heart rate variability to estimate stress levels
- Provides guided breathing exercises to help reduce stress

To check stress levels:

1. Open the Stress app on your watch
2. View your current stress level and daily pattern
3. Tap "Breathe" to start a guided breathing session

Fitness Tracking

Activity Tracking

- Automatically counts steps, distance, calories, and active minutes
- Displays progress toward daily goals
- Inactivity reminders encourage movement throughout the day

To view activity stats:

1. Swipe to the Activity widget
2. Tap to open the Activity app for more details
3. Rotate the digital crown to scroll through different metrics

Workout Modes

The PulseTrack Elite X2 supports over 120 different workout types with specialized metrics for each.

To start a workout:

1. Open the Workout app on your watch
2. Select your workout type
3. Tap "Start" to begin tracking
4. Swipe left/right during the workout to view different metrics
5. Press the multi-function button to pause/resume
6. Swipe up and tap "End" to finish the workout

Popular workout modes include:

- Running (indoor/outdoor)
- Cycling (indoor/outdoor)
- Swimming (pool/open water)
- Strength training
- HIIT
- Yoga
- Hiking
- Golf

Automatic Workout Detection

The watch can automatically detect and record common activities like walking, running, elliptical, and rowing after 10 minutes of activity.

To enable/disable:

1. In the FitTech Connect app, go to "Device Settings" > "Activity Detection"
2. Toggle on/off for each activity type

AI Coach

Receive real-time guidance during workouts to optimize form and performance.

To use the AI Coach:

1. Start a compatible workout (strength training, running, etc.)

2. Tap the coach icon in the workout screen
3. Follow the on-screen guidance and feedback

AI Coach Interface

Smart Features

Notifications

Receive alerts for calls, texts, emails, and app notifications directly on your wrist.

To manage notifications:

1. In the FitTech Connect app, go to "Device Settings" > "Notifications"
2. Toggle on/off for each app or notification type
3. Customize Do Not Disturb schedules

Music Control

Control music playback on your connected smartphone.

To use music controls:

1. During playback on your phone, swipe right to access the music widget
2. Use the on-screen controls to play/pause, skip tracks, and adjust volume

Contactless Payments

Make purchases directly from your wrist using NFC technology.

To set up payments:

1. In the FitTech Connect app, go to "Wallet"
2. Tap "Add Payment Card"
3. Follow the instructions to add your card
4. Set a PIN code for security

To make a payment:

1. Press the multi-function button twice to access the wallet
2. Enter your PIN if prompted
3. Hold your watch near the payment terminal

Voice Assistant

Access your phone's voice assistant directly from your watch.

To use the voice assistant:

1. Press and hold the multi-function button for 2 seconds
2. When the assistant icon appears, speak your command
3. Release the button when finished

Customization

Watch Settings

Customize your watch settings directly on the device:

1. Swipe down to access quick settings
2. Tap the gear icon to open Settings
3. Adjust brightness, sounds, vibration intensity, and more

App Layout

Rearrange apps on your watch:

1. From the watch face, press the multi-function button to access the app grid
2. Press and hold on any app icon
3. Drag to rearrange or tap the X to remove from favorites
4. Tap "Done" when finished

Widgets

Customize which widgets appear when you swipe left/right from the watch face:

1. In the FitTech Connect app, go to "Device Settings" > "Widgets"
2. Tap and hold to rearrange widgets
3. Toggle switches to show/hide widgets

Battery and Charging

Battery Life

- Standard mode: Up to 14 days
- GPS mode: Up to 36 hours
- Always-on display: Reduces battery life by approximately 30-40%

Charging Instructions

1. Align the charging contacts on the back of the watch with the magnetic charger
2. The watch will display the charging icon when properly connected
3. A full charge takes approximately 2 hours

Battery Saving Tips

- Lower screen brightness
- Reduce timeout duration
- Disable always-on display
- Turn off continuous heart rate monitoring when not needed
- Use GPS only during workouts
- Enable battery saver mode for extended trips

Care and Maintenance

Cleaning

- Wipe the watch and band regularly with a lint-free cloth
- For deeper cleaning, use a cloth dampened with water or mild soap
- Dry thoroughly after exposure to sweat or water

Band Replacement

1. Locate the quick-release pins on the underside of the watch
2. Slide the pin inward to release the current band
3. Align the new band with the attachment points
4. Insert until you hear a click

Water Resistance

While the PulseTrack Elite X2 is water-resistant to 50 meters (5 ATM), please note:

- Rinse with fresh water after exposure to salt water
- Dry thoroughly before charging
- Avoid pressing buttons underwater
- Water resistance may decrease over time; avoid steam rooms and saunas

Troubleshooting

Problem	Possible Cause	Solution
Watch won't turn on	Battery depleted	Charge for at least 30 minutes
Unresponsive screen	Software crash	Press and hold button for 10 seconds to restart
Not syncing with phone	Bluetooth connection issue	Ensure Bluetooth is enabled, restart both devices
Inaccurate heart rate	Improper wear or dirty sensors	Wear watch finger-width above wrist bone, clean sensors
GPS signal lost	Environmental interference	Move to open area, ensure GPS is enabled
Battery draining quickly	Background features active	Check for active GPS, reduce brightness, disable always-on display
Notifications not working	App permissions issue	Check notification permissions in phone settings

For additional troubleshooting, visit fittech.com/support or contact customer service.

Firmware Updates

Keeping your firmware updated ensures optimal performance and access to the latest features.

To update firmware:

1. Ensure your watch is charged to at least 50%
2. Connect to Wi-Fi or keep the watch near your paired phone
3. In the FitTech Connect app, go to "Device Settings" > "System Update"
4. If an update is available, tap "Download and Install"
5. Keep the watch on the charger during the update process

Warranty Information

The PulseTrack Elite X2 comes with a 2-year limited warranty covering defects in materials and workmanship under normal use. For warranty service, contact FitTech customer support with your proof of purchase.

Water damage, accidental damage, and normal wear and tear are not covered under warranty.
